

Southwood doors are distributed by some of the nations most trusted building materials suppliers in the industry, offering added value and service to our products.

Our inception began with the inspiration and vision to become a new leader in the wooden entry door market while establishing stable growth, which will lead to gainful employment opportunities as well as economic growth in the community. With decades of experience in manufacturing and quality service, the Southwood Doors team is dedicated to becoming a pioneer of creative entries for the home.

We believe in a foundation based on putting our employees first. With a strong belief in a family culture, prideful workmanship, and a constant desire for new innovation, customers will find Southwood Doors to be a prime resource for exotic wood doors.

WARRANTY

WOOD DOOR LIMITED WARRANTY

Every Southwood door is covered under warranty for a period of one (1) year and guaranteed to be free from defect as a result of manufacturing or quality.

Should the warranted door be found to contain defects as stated above, Southwood Doors, will at its option, either repair or replace any door without charge or a full refund given to the distributor in order to facilitate a refund to the end user.

In the event of a defect discovered by inspection of a door upon receipt of shipment from Southwood Doors, immediate notice must be given before the door is shipped to the end user or installed in any application. A replacement door unit will be reshipped pre-paid to the distributor of origin. In the event that the damage is discovered upon receipt from the distributor, the distributor should be notified immediately before any installation occurs and a reasonable acceptance of responsibility will be determined and the end user will be accommodated accordingly.

Under the terms of this warranty, Southwood Doors is obligated to replace the defective product, F.O.B. distributor's warehouse from which the original sale was facilitated. No labor, installation, finishing and/or consequential damages will be covered.

1. All Doors must be installed providing sufficient protection from exposure to weather including excessive moisture/rain as well as excessive heat due to sun exposure. This protection required includes adequate overhang distance that is at a minimum projection from the home at one half the distance from the floor of the overhang to the ceiling of the overhang.
2. Any deterioration of the wood components of the door unit caused by neglect or failure to protect and seal all exposed surfaces and edges of the door either prior to or immediately after hanging the door are not covered by this warranty. Every door unit regardless of exposure must be annually inspected and maintained by the homeowner. Reasonable maintenance includes ensuring adequate clear topcoat that contains a UV inhibitor and is maintained throughout the life of the door.
3. Southwood Doors reserves the right to require on site inspections of maintenance and installation procedures before any claim will be processed.
4. Wood is a natural product therefore any variations in color, texture, grain or the general surface appearance of wood naturally occurring will not be considered defects. Variations in wood color must be compensated for by the use of staining methods preferably implemented by a professional.
5. All wood doors are constructed using floating panels. This construction method allows for expansion and contraction. Exposure to severe moisture such as rain in an unprotected environment may result in water penetration through the panels and is not considered a defect. In the event of water penetrating through the edges of the panels in this environment, it will be the consumers responsibility to caulk and or provide a remedy for the water penetration.

Glass Limited Warranty

Southwood Doors warrants that all glass shall be free from seal failure for ten (10) years from the date of shipment.
